

SILVERPLUS

silver ions 3mcg/ml, de-ionised water

INDICATION

SILVERPLUS is used to boost/support your immune system and As Adjunct therapy for treatment of bacterial, fungal, parasitic and viral infections.

DOSAGE

10mls to be taken after 8 hours.

Keep in the mouth for 30 seconds after brushing your teeth and swallow.

Mode of Action;

Silver ions have a catalytic oxidation capacity whereby they destroy the microbe:

- a. Silver ions bind to the microbial cell wall causing it to rupture and allowing the Silver ions to penetrate into the cell.
- b. Inside the cell, the Silver ions bind to key enzymes that are needed to help produce energy within the cell, this blocks metabolic system of the cell.
- c. The Silver ions bind to the Microbial DNA strands and block the replication process, this shuts down microbial cell reproduction.

Store below 25°C.

Store in a cool dark place.

Keep out of children's reach

Shake well before use.
